Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Amendment B, filed 2/26/03 has been entered.

Amendment B overcomes claim rejections under 35 USC 102 and 103.

Allowable Subject Matter

Claims 4-14 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 12, the prior art of record neither shows nor suggests an image intensifier tube with a housing holding a photocathode, screen and a microchannel plate, with the support for the microchannel plate comprising a one-piece longitudinally extending cylindrical collar in the housing having longitudinally extending interior and exterior cylindrical surfaces which are parallel to each other along the entire length of the exterior cylindrical surface, the interior cylindrical surface but not the exterior cylindrical surface having a cylindrical recess indented so there are interior cylindrical portions on both sides of the recess and the microchannel plate is held in the recess and the cylindrical collar further having an annularly shaped base extending radially from the external cylindrical surface, in combination with other claim limitations.

Regarding claims 4-11 and 13-14, dependence on a base claim and the reasons stated above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, filed 2/26/03, have been fully considered and are persuasive.
